WARNING LETTER

FLA-00-77

August 22, 2000

Gilbert Migliano, President
Save On Seafood Company
4520 - 8th Avenue So.
St. Petersburg, Florida 33711

Dear Mr. Migliano:

The Food and Drug Administration (FDA) attempted to examine a shipment of fresh swordfish loins offered for entry into the United States by your firm on April 9, 2000, under the above referenced entry number, and found eleven of the eighteen cases were not available for FDA examination. Title 21, Code of Federal Regulations (21 CFR), Section 1.90 requires the importer to hold an entry intact pending receipt of a "May Proceed Notice" or "Release Notice" from FDA. Since the product was not held intact, we have requested the U. S. Customs Service (Customs) to order redelivery of this shipment which has been distributed without a release from FDA (copy enclosed).

Failure to promptly correct this violation and prevent future violations may result in regulatory action without further notice such as seizure, injunction, or automatic detention of further shipments. It is your responsibility, as the importer, to ensure that imported products meet all the requirements of the Federal Food, Drug, and Cosmetic Act and the regulations promulgated thereunder.

We request a response in writing within fifteen (15) working days of receipt of this letter outlining the specific steps you have taken to correct the violation. Your response should include an explanation of each step being taken to prevent the recurrence of the violation. In the event that the product is still available for examination, you should inform Customs and FDA if and when redelivery is accomplished.
